"Today is a historic day in for this institution which was named BKPM and in April 2021 became The Ministry of Investment. The previous Secretary to the Ministry, Mrs. Farah and the current Secretary to the Ministry, Mr. Ikmal, holds a significant role in the strengthening of this institution. I give thanks and congratulations to Mr. Ikmal and all the inaugurated colleagues," said Bahlil.

Bahlil instructed that the strengthening of the institution is not only in the context of authority but also in the large responsibilities taken. One responsibility is in the context of the implementation of the Law on Job Creation (UU CK), especially regarding business licensing and its system.

Bahlil also emphasized good cooperation is very much needed. To him, there is no great leader without good cooperation.

"No matter how small the employee contribution, we must appreciate as an integral contribution in determining the success of a program and Ministry performance. Target investment is increasing, this year is IDR900 trillion, next year is IDR 1,200 trillion. That is why we are working outside the norm, after office hours, and even on Saturday and Sunday.
